

## ROV Diamond Wire Saw

This rugged, high-performance DWS can cut items up to 13.5in in diameter

Engineered for user-friendliness, the ROV Diamond Wire Saw is small and simple enough to be connected directly to the main hydraulics of the ROV without the added expense of an IHPU.

The saw is flexible enough to be customised to suit client needs with only a short lead time for mobilisation. Gravity feed fixtures are also available as an option for safe and efficient 'hands free' operation.

### Applications

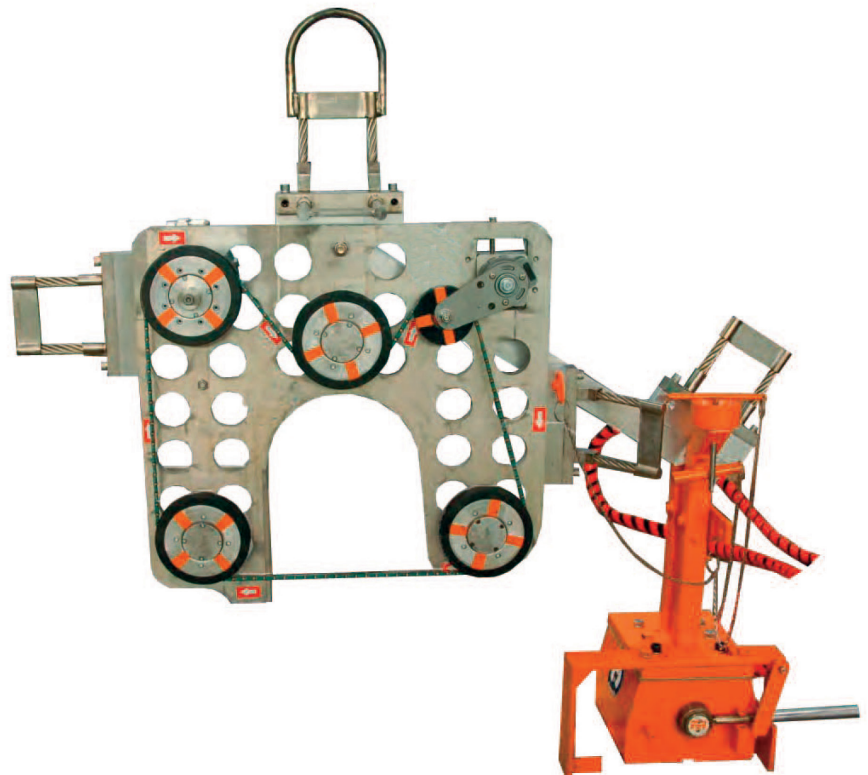

- Subsea pipeline repairs
- Subsea salvage
- Decommissioning

### Features

- Compact dimensions
- HD Parker drive motor
- Automatic wire tensioner

### In the box

- Operations and maintenance manual
- Shipping cradle
